# Official fees, nightly price monitoring, stock import

## Official fees

Informational display only, the official tariffs cannot be edited from here.

## Nightly price monitoring of stock

- Warning threshold (Forint bands)
- Frequency of notification and revaluation (daily, weekly, every two weeks, monthly)

## Stock import

To start the stock import, enter the export link of the listing portal.

In the dealer Settings, there is currently no separate team or user management, two-factor authentication, or language switcher.

*Support: Telegram and Viber, 24 hours a day, every day of the week.*
