Registration and activation

Who it is for

The dealer application is exclusively for businesses with a valid tax number. The tax number and company name provided during registration together identify the account, and a second account cannot be created later with this same pair.

Process

1. Enter the company name, the contact person, the tax number, the e-mail address and the password on the app.carvinsight.eu page.
2. The current Privacy Notice and the Terms and Conditions will open. The 'I accept' button is only active if you have scrolled through both documents. The system stores who accepted which version and when, and it will not ask again until a new version is published.
3. The account is live immediately: a 14-day trial without a bank card. Every new dealer receives it. The Gold features (search, valuation, stock) can be used during the trial, within the trial limits.
4. On the 13th day, the application warns you, and we also send an e-mail. The e-mail contains the FIRSTDEALER50 code (50% off the Gold monthly fee for 3 months, only at the first payment).
5. Upon payment (during the trial, on the 14th day or later), the same account becomes a paid one. There is no need for a new registration, a new password or a new account.
6. After the 14th day, you must choose a package to continue. Until then, access is suspended, but the account remains.

Trial limits

The limits apply to the entire 14 days of the trial, not daily:

- 10 quick valuations
- 10 trade-ins
- 20 stock cars
- 200 searches

Payment methods

Bank card payment or bank transfer, with a monthly or annual fee. Details: Subscription management (Profile).

First buyer discount

The FIRSTDEALER50 code is only valid at the first successful payment, and only for the Gold package. If you do not enter it then, it will no longer be available later. The trial does not count as a payment.

If a new version of the Terms and Conditions or the Privacy Notice comes into effect, we will ask for your acceptance again at the next login.
