B3. Login and dashboard

Login and the structure of the Dashboard.

- Login and the Dashboard

Login and the Dashboard

You can log in to the CarVinsight service provider interface at partners.carvinsight.eu using your email address and password.

After logging in, a collapsible left menu and the Dashboard appear. The main menu items are:

- Dashboard
- Orders
- Services
- Opening hours and Calendar (if available in the account)
- Settings
- Support: starting and tracking an inquiry

The Dashboard shows an overview of the profile and verification status. If the site has not been provided yet, it indicates filling in the site details as the next step.

Sharing from the Dashboard

Verified service providers see the share button on the Dashboard if their profile includes a site and at least one service. Public recommendation page: partners.carvinsight.eu/ajanlas.

Verification is started from the Settings menu; it is not a mandatory first step during registration.
